

Net Price Calculator

College Raptor's industry-leading NPC helps you communicate affordability and value to your prospective students in the best possible way.

Mobile-Friendly Design

College Raptor's net price calculator was designed to look great and function flawlessly across all devices, allowing you to meet students where they are and provide useful information with a great user experience.

Seamless Website Integration

By integrating the NPC into your website you can increase engagement, maintain brand consistency, and deliver a superior user experience. We also make implementation easy, matching your exact colors and font and embedding into any of your web pages with only a few lines of code.

Fully Customizable

We believe it's important to provide accurate, personalized net price estimates to all of your prospective students. We build each NPC from scratch to reflect your unique financial aid strategy, and we do all the programming work for you. Just send us your costs and awarding parameters, and we'll deliver a net price calculator tailor-made for your institution.

High Completion Rates

We provide multiple pathways for students and parents to complete the calculator depending on how much financial information they have on hand at the time. Pair that with our smart design, and you get the best combination of high completion rates, accurate results, and user-friendliness available today.

Integrated Lead Generation

Our campus partners generate thousands of qualified inquiries each year through their NPC alone, making it a critical component of their enrollment strategy. With easy usage report delivery and on-demand access to your data, you'll have the tools to increase conversions and meet your goals.
